Curvature of surfaces of revolution, connection forms, structural equations

1. Convexity of profile and Gaussian curvature. 5.7.2
2. Gaussian curvature and polar coordinates. 5.7.5
3. Twisted surface of revolution. 5.7.9
4. Connection forms from attitude matrix. 2.7.1
5. Connection forms of natural frame field. 2.7.2
6. Covariant derivative formula using connection forms. 2.7.5
7. Exterior derivative of 1-form using connection forms. 2.8.1
8. Darboux frame and connection forms. 6.1.1
9. Fundamental equations for adapted frame field on sphere. 6.1.2
10. Fundamental equations for adapted frame field on cylinder. 6.2.1
