Math 499 Reflection Sheet

Your name:

Reporting Date:

First, look over the four Talk Summarizes that you’ll be summarizing here. Then answer the following questions:

Which of these talks was the most understandable to you? Why?

Which of these talks was the least understandable to you? Why?

What is the most interesting thing you heard in any of these four talks?

What is one thing that you have been inspired to read/study because of something you saw in any of these four talks?

Was there any connection between something you saw in one of these talks, and something you plan to do research on later? Explain.
