• You will have 50 minutes for the exam.
• Place your (approved form of) ID on your desk so that we can check it during the test time.
• Circle your TA discussion section from the list below on this page.
• Do not open this test booklet until Dr. Davidson says START.
• Turn off and put away all electronic devices, and put away all items except a writing instrument and an eraser.
• You must show sufficient work to justify each answer, unless the question is True/False or Multiple Choice, in which case no partial credit will given for an incorrect answer.
• Raise your hand if you have a clarification question, and a proctor will walk to you.
• Do not leave early: this disturbs other students. If you finish your test early, check your work, or just relax and enjoy some moments of peace.
• Quit working and close this test booklet when Dr. Davidson say STOP.
• When the test time is over, hand your test booklet to Dr. Davidson or a TA proctor.
