Office Hours: There is a Math 231 tutoring room set up in room 239 Atgeld. Two or three TAs will help there each hour between 4pm and 8pm, Monday through Thursday. I will be there between 4 and 6 on Mondays.

Class Format: The first ten minutes of class will be spent going over your questions about homework or class lecture material.

Most of the class period will be spent working in small randomly-chosen groups on worksheets based on the topics of the class lectures. Each student in the class will submit their solutions to the worksheet, but only one of the submissions from each group will be graded—the entire group will share this grade. No makeup worksheets will be offered, even if it is missed for a good reason. The lowest 4 worksheet scores will be dropped. Worksheets will account for 5% of the total course grade.

Almost every Friday there will be a short quiz. The topics to be covered on each quiz will be listed on the class website. No makeup quizzes will be offered, even if the quiz is missed for a good reason. The lowest two quizzes will be dropped. Quizzes will account for 10% of the course grade.

Grades will posted on Moodle (Learn.illinois.edu).
