Math 347
Journals and Participation

You should hand in your complete collection of journals on Monday, Dec. 11. You can bring them to class or put them in my mailbox. Make sure that each journal is carefully dated and labeled. Even more importantly, make sure that your name is on the journal. Please answer these questions on the last page of your journal (not on a separate sheet).

**Journals and Participation:**

1. How many journals did you complete?
2. How many of the journals that you completed were late or were never signed? Please explain.
3. How seriously did you think about each question?
4. How carefully did you attempt to write your thoughts down? Are your entries legible and intelligible?
5. Did you come to class prepared? Did you do the reading ahead of time? Did you bring appropriate materials?
6. How well did you participate during discussions, in small group work, and while other students presented proofs? Did you usually stay focussed on the question at hand? Did you ask questions, raise hypothesis, or answer questions, as appropriate?
7. Did your present proofs regularly? Where your proofs clear and correct?
8. Please list any excused absences, e.g., illness, death of a close relative, required attendance at an official UIUC activity.
9. Of the remaining classes, what percentage did you attend?
10. Based on the answer to the above questions, what total grade do you feel that you deserve for journal and class participation?

**Homework**

1. Did you turn in every homework, and hand it in on time? If not, was it excused? Please explain.

**Exams**

1. Did you miss any exam for any reason? If so, was the absence excused? Please explain.

**Final**

1. Do you need to take a conflict final? If so, is your name on the conflict list on the course home page? (Make sure the answer to this is yes.)
