### 3.4 - List Coloring.
- Upper Bounds. 320
- Bipartite Graphs. 323
- List Edge-Coloring. 328
- Planar Graphs. 337
- The Alon–Tarsi Theorem. 339
- Paintability. 342
- Precoloring Extension. 354
- Exercises. 356

### 3.5 - Circular Coloring and Homomorphisms. 363
- Circular Chromatic Number. 363
- \((k, d)\)-Colorings. 367
- Extreme Circular Chromatic Numbers. 370
- Graph Homomorphism. 377
- Fractional Chromatic Number. 379
- Cores and Retracts. 382
- Exercises. 385

### 3.6 - The Discharging Method. 389
- Maximum Average Degree. 390
- List Coloring. 398
- Edge-Coloring and List Edge-Coloring. 401
- Planar Graphs. 405
- Exercises. 412

### Chapter 4 - Perfection and Imperfection 416

#### 4.1 - Perfect Graphs.
- Classical Examples. 419
- The Perfect Graph Theorem. 413
- Larger Classes of Perfect Graphs. 416
- The Star-Cutset Lemma. 421
- Exercises. 426

#### 4.2 - Imperfect Graphs.
- Partitionable Graphs. 440
- The Strong Perfect Graph Conjecture. 446
- The Strong Perfect Graph Theorem. 451
- Exercises. 455

#### 4.3 - The World of Perfect Graphs.
- Chordal Graphs. 460
- Strongly Chordal Graphs. 465
- Chordal Bipartite Graphs. 478
- Comparability Graphs. 482
- Modular Decomposition. 487
- Cocomparability and Permutation Graphs. 492

### 4.4 - Intersection Classes. 527
- General Intersection Classes. 527
- Line Graphs. 530
- Other Intersection Graphs. 533
- Intersection Digraphs and Bigraphs. 536
- Exercises. 543

### Chapter 5 - Other Extremal Problems 548

#### 5.1 - Forbidden Subgraphs. 549
- Cliques and Turán’s Theorem. 549
- Erdős–Stone–Simonivits Theorem. 557
- Bicliques and Zarankiewicz’s Problem. 562
- Saturation Numbers. 570
- Extremal Problems for Hypergraphs. 573
- Forbidden Induced Subgraphs. 579
- Exercises. 583

#### 5.2 - Graph Ramsey Theory. 589
- Ramsey Numbers. 589
- Graph Ramsey Numbers. 594
- Graphs with Bounded Degree. 598
- Restricted Ramsey Theory. 605
- Parameter Ramsey Theory. 609
- Anti-Ramsey Theory and Beyond. 612
- Exercises. 616

#### 5.3 - Graph Decomposition. 623
- Complete Graphs. 623
- Forests and Trees. 627
- Fractional Arboricity. 630
- Paths and Cycles. 636
- Exercises. 639

#### 5.4 - Representation Parameters. 643
- Intersection Number. 643
- Boxicity. 645
- Multiple Interval Representations. 648
- Visibility Representations. 657
- Leafage and Other Parameters. 662
- Exercises. 668
